

IN THE CLAIMS:

Kindly replace the claims of record with the following full set of claims:

1. (Cancelled)
2. (Previously presented) A method, operable in a computing system, of providing a position fix comprising the steps of:
 - connecting to a GPS receiver device; and
 - receiving encrypted GPS signal samples therefrom, wherein the GPS receiver device is provided a variable encrypted key for encrypting received GPS data;
 - decrypting the encrypted GPS signal samples using a decryption key comparable to the encryption key; and
 - processing the decrypted GPS signal samples to determine a position fix.
3. (Original) A computer program comprising instructions for performing the method of claim 2.
4. (Original) A computer-readable storage medium having recorded thereon data containing instructions for performing a method according to claim 2.
5. (Original) Apparatus configured to perform a method according to claim 2.
6. (Cancelled)

7. (Currently Amended) The method as recited in claim [1] 2, wherein the encryption key is provided by an external device.

8. (Currently Amended) The method as recited in claim [1] 2, wherein the encryption key is determined for each initiation of the computing system.
